

## **Additional Services**

Several optional services are offered to participating suppliers in the Customer Select<sup>®</sup> program. These services are summarized below. Contracts are located under separate links within the Additional Services section of the Supplier Information Manual at [www.nicor.com/select](http://www.nicor.com/select).

### **Commercial Customer List Service:**

Target potential customers by using one of the various commercial customer mailing lists offered by Nicor Gas. List options include a full list of all commercial customers (rate classes 4, 5, 74 and 75) and customers by meter class. Suppliers interested in this service should read and complete the Commercial Customer List License Agreement.

### **Nicor Gas Consolidated Billing Service:**

Nicor Gas offers a service to bill the supplier's charges on the utility's bill. This service includes the printing and mailing of supplier's charges on the Nicor Gas bill, payment processing and remittance of payments to the supplier's bank. Nicor Gas does NOT calculate supplier charges to be included on the bill. This is a "Bill Ready" service versus a "Rate Ready" service. Suppliers interested in this service should read and complete the Nicor Gas Consolidated Billing Services Agreement.

### **Supplier Consolidated Billing Service:**

Suppliers may offer customers a consolidated bill issued by the supplier, which includes supplier charges and utility charges. Suppliers interested in this service should read and complete the Supplier Consolidated Billing Service Agreement.

### **Nicor Gas Direct Mail Marketing Program:**

Promote your business through a monthly advertising insert included with our customers' bills. The Nicor Gas Direct Mail Marketing Program is an excellent way to reach a large audience located throughout the northern third of Illinois. Suppliers interested in this service can learn more from reviewing the flyer under the Additional Services section of the Supplier Information Manual at [www.nicor.com/select](http://www.nicor.com/select).

### **Residential Customer Mailing List Service:**

Nicor Gas makes available a residential customer mailing list to suppliers. The list includes customer names, service addresses and mailing addresses. It excludes customers on the Company's Do Not Contract list. The list is available quarterly at no cost to the supplier. Suppliers interested in this service should read and complete the Residential Customer Mailing List License Agreement.

### **Residential & Small Commercial Customer Data License Service:**

This service provides anonymous natural gas usage data for all residential and small commercial customers in Nicor Gas' service territory. Once you've obtained permission from the customer, you can access the customer's historical gas consumption and other customer information. Suppliers interested in this service should read and complete the Residential & Small Commercial Customer Data License Agreement.
